Planning for the Kaufman County Transportation Plan is in its final stages, and your input on the draft thoroughfare plan and recommendations is requested. The plan, geared towards county-wide connectivity, has been a coordinated effort between Kaufman County Cities, stakeholders, and a number of other county committees and agencies.

To better serve residents, we will host four (4) public meetings to gather final input from the public regarding long-term mobility, recommended transportation improvements, and the draft Kaufman County Thoroughfare Network.

The information presented at all of the meetings will be identical. Light refreshments will be served.
